

GIJO

2 Stage Telescope Mini Pump W/Clever Valve & T Handle

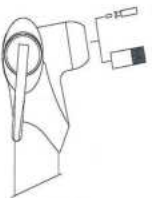

FEATURE

- Clever Valve: No more reverse for presta and schrader.
- 6063 Alum barrel.
- Ergonomic T handle for better holding.
- Telescope Design: More air per stroke.
- Lockable telescope barrel for "High Volume" and "High Pressure".
- Compact.

2 STAGE CLEVER VALVE INSTRUCTION

1. Make sure lever is on loosen position. (fig I)

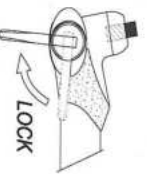

(fig I)

2. Rotate top cap to "Hv" (High Volume) stage. (fig II)

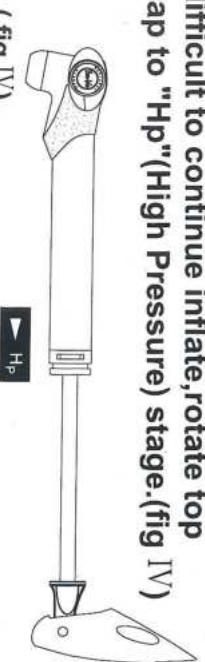

(fig II)

3. Insert clever valve to tire valve, clever valve can connect with either presta or schrader instant W/O switch internal parts.
4. Push lever down 90 degree to lock tire valve. (fig III)

(fig III)

5. Inflate tire in telescope style.
6. When tire in pressure getting high and difficult to continue inflate, rotate top cap to "Hp"(High Pressure) stage.(fig IV)

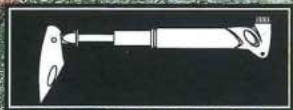

(fig IV)

7. Continue inflate to desired pressure.
8. Pull lever back 90 degree to release

GIYO

Telescope Mini Pump
W/Tr Handle

FEATURE:

- Reinforced plastic barrel.
- Ergonomic T handle for better holding.
- Reversible presta and schrader.
- Telescope Design: More air per stroke.
- Light weight.
- Compact

INSTRUCTION:

- Choose right valve. Valve is easily changed by reversing rubber valve and valve adapter.
- Loosen valve cap a little. Insert valve to tire valve.
- Pull thumblock lever to lock pump onto tire valve.
- Inflate tire to desired pressure.
